## **Equis Receives Women-Owned Business Certification**

Calabasas, Calif. – On March 25 of this year, Equis Financial Staffing became certified as a women-owned business by the Central Contractor Registration (CCR), the primary registrant database for the United States Federal Government.

To become certified as a minority- or women-owned business, Equis had to establish that their firm was at least 51 percent owned and controlled by one or more women. With this designation, Equis gains eligibility in applying for federal contracts.

“Becoming certified and registered as a 100 percent, women-owned business is a wonderful milestone for Equis,” says Carrie Nebens, president and founder of Equis. “We are now in a place to create opportunities that may have otherwise passed us by.”

As of 2008, 10.1 million firms were women-owned, employing more than 13 million people and generating \$1.9 trillion in sales.

*About Equis – Equis Financial Staffing is a privately owned and operated staffing agency.
